2026 AMC Payment & Service Continuity Notice

Subject: URGENT: Technical Support & Operational Risk Advisory for 2026 AMC

Dear Mr. Zaker,

This is a formal notification regarding the outstanding **2026 Annual Maintenance Charge (AMC)** for your account. Our records indicate the following invoice remains unpaid:

- **Invoice Number:** AMC261229006
- **Total Amount Due:** USD 200.79 0, EUR 442.38

To ensure your operations remain stable, please ensure this payment is settled by **April 15th, 2026**.

Operational Risk Advisory: Impact of Non-Payment Maintaining an active AMC is critical to machine performance. If payment is not confirmed by the date above, we will **temporarily suspend** technical services. This creates significant operational risks, including:

- **System Vulnerability:** Access to the latest **Firmware and Software** updates will be restricted.
- **Market Readiness: New Currency Templates** will not be available for download.
- **Data Isolation: mCloud Connectivity** will be disconnected, halting remote monitoring.
- **Support Latency:** All **Online and Remote Technical Support** will be paused.

We value our partnership and wish to avoid these disruptions. Full access will be restored immediately upon receipt of the outstanding balance.

Next Steps: If payment has been processed, please provide a remittance copy. For billing inquiries, please contact your **dedicated Sales Representative Colombo**, or Lawrance Huang (lawrance.huang@automodules.com).

Sincerely,

March 20th, 2026
